

Case Carts

Stainless Storage & Transport Solution

Skytron Stainless Steel Case Carts provide a durable, organized solution for transporting and storing essential supplies throughout the clinical environment. With flexible storage configurations and secure, protective features, Skytron Case Carts help keep supplies organized, accessible, and ready when needed.

skytron

Built for the Demands of Clinical Care

Keep essential supplies organized, protected, and ready for use with Skytron Stainless Steel Case Carts. Built to withstand the demands of busy healthcare environments, these carts combine durable stainless steel construction with thoughtful mobility, storage, and security features. From transporting supplies to supporting procedure preparation, Skytron Case Carts help simplify clinical workflows while providing a dependable solution for everyday healthcare operations.

Stainless is Your Clinical Advantage

Built for the demands of clinical environments, Skytron Stainless Steel Case Carts feature durable, fully welded construction for lasting strength and reliability. Smooth, cleanable surfaces and corrosion-resistant stainless steel help withstand everyday wear while supporting the demands of healthcare workflows.

Move & Transport with Confidence

Designed for smooth, controlled transport throughout the clinical environment, Skytron Case Carts feature heavy-duty casters and ergonomic push handles for easy maneuverability. Non-marring bumpers help protect surrounding walls and equipment, while locking casters help keep the cart securely positioned when in use.

Organize Your Space, Your Way

Designed to keep procedure-specific supplies organized, Skytron Case Carts help streamline transport and preparation while keeping contents contained and protected. By supporting efficient organization from storage to the point of care, they help promote consistent workflows and efficient room turnover.

Closed Case Cart

Our Closed Case Carts combine durable, fully welded construction with secure doors and soundproof tops for quiet, reliable transport. Heavy-duty stainless steel casters provide smooth mobility, while flexible shelving and clean-dirty options support a variety of clinical workflows.

Sealed Case Cart

The Skytron Sealed Case Cart combines durable, fully welded stainless steel construction with secure doors, soundproofing, and dust-control features. Heavy-duty casters provide smooth mobility, while flexible shelving and clean-dirty options support a variety of clinical workflows.

Vertical Handle Case Cart

Skytron's Vertical Handle Case Cart combines durable, fully welded construction with ergonomic vertical handles for precise control and easy maneuverability. Soundproofed tops and doors, adjustable stainless steel shelving, secure door latches, and heavy-duty casters provide quiet, organized, and reliable transport throughout the clinical environment.

Open Case Cart

The Skytron Open Case Cart features a durable, open design ideal for storing and transporting supplies, linens, and other clinical essentials. A stainless steel guard rail helps keep contents secure, while the full wrap-around non-marring bumper and 6" composite casters provide added protection and mobility.

304 Stainless Steel for Reliable Performance in Demanding Healthcare Environments

Precision-Crafted Stainless Solutions

- Constructed with durable 304 stainless steel for long-lasting performance
- Resistant to corrosion, moisture, and harsh cleaning chemicals
- Smooth, non-porous surface supports effective cleaning
- Designed to withstand demanding healthcare environments and daily use
