Skytron lights are designed to give healthcare professionals convenience and performance, allowing every case to be visualized in precise detail without unnecessary hassle. Featuring a diverse range of options, Skytron offers innovative lighting solutions for general and hybrid operating rooms, trauma bays, examination rooms and more.

Maximize Performance
From controlling focus via a center handle to moving the spot with a hand-held wand, Skytron lighting options strive to remove complications and simplify the daily operations of healthcare professionals.

More Applications
With models ranging from high-intensity surgical applications to easy to clean exam lighting, Skytron provides one source to outfit operating rooms, labor and delivery suites, emergency departments, intensive care units and more.

Long-Lasting Quality
All Skytron lights are built to be durable, long-lasting and economically conscious. Suspended LED design increases air flow resulting in cooler operating temperatures and longer life. Rely on Skytron to assure low cost of ownership throughout the light’s long lifecycle, backed by quality components, meticulous design and excellent service.
Skytron has led the industry in clinical lighting for decades, providing the most advanced features and technology available. From adjustable focus surgical lights to LED strobe-guided wands for recessed exam lighting, Skytron products simplify daily operation and streamline patient care.

**Surgical Lights with True Focus Adjustment**
Extend the working distance and focal point of Skytron surgical lights easily with the center handle — without moving the lighthead or reducing surgeon head room.
Lumos • Aurora Four

**Precisely Tailored Illumination**
Bring crisp, deep-cavity illumination to any procedure with different spot sizes, color temperatures, and intensities.
Lumos • DoVera

**LED Strobe-Guided Exam Lights**
Keep the light and caregiver focused on the patient with an LED strobe-guided positioning wand. Point the wand toward the targeted site and the light is repositioned automatically.
Lucina 4
Putting the Surgical Team in Control of Focus & Illumination

The Lumos surgical light is the latest LED innovation to the Skytron lighting portfolio. This next-generation surgical light puts enhanced clarity and focus in the clinician's hand. Utilizing our best-in-class reflective LED technology, Lumos provides ideal illumination with optimal shadow control. Lumos offers 60 different variations of light and 12 that produce 160,000 LUX. Lumos’ personalized lighting enhances your ability to see what is important to you! 3 Spot Sizes, 4 Color Temps, 5 Adjustable Intensities equals Precisely Tailored Illumination™.

**Perfect for**
- General operating rooms
- Hybrid and specialty operating rooms
- Outpatient surgery centers
- Catheterization labs
- C-section suites
- Emergency departments
- Intensive care units

**Differentiating Features**
- Crisp, deep-cavity illumination with three spot sizes
- Sixty combinations of spot size, color, and intensity
- By utilizing the ten presets, Lumos creates efficiency and lowers set-up time and frustration
- Control the focus from the sterile handle
- Intuitive flush-mounted wall control allows you to choose spot size, color temperature, intensity, and control the in-light surgical camera with a simple touch on the LCD screen
The Aurora Four is designed to take unnecessary work out of complex surgical procedures. With focus control from the center handle and selectable color temperature, clinicians can quickly make adjustments tailored to surgeon preference or case.

Integration with Skytron booms, flat-screen displays and HD cameras makes the Aurora Four a versatile solution for surgical lighting.

**Perfect for**
- General operating rooms
- Hybrid and specialty operating rooms
- Outpatient surgery centers
- Catheterization labs
- C-section suites
- Emergency departments
- Intensive care units

**Differentiating Features**
- Sterilizable center handle allows for control of intensity, focal point, and positioning
- Vertically segmented reflectors create a crisp, homogeneous spot and drastically reduce shadows
- Selectable color temperature of 4,100°K for soft white light, or 4,500°K for a bright, white light
- HD camera-ready for on-demand visuals
- 360° infinite rotation on all axes provides unmatched flexibility and positioning

Focusable LED Surgical Light, Camera Ready, Selectable Color Temperature
Suited for any surgical application, the DoVera DM520 provides superior illumination while eliminating glare. Innovative controls on the yoke provide quick personalization of spot size, color temperature, and intensity.

Differentiating Features

- Personalized lighting control lets the user adjust spot size, color temperature, and intensity right on the yoke
- DoVera's unique Double Reflection Technology eliminates the discomfort of inadvertently looking directly into the light source
- A courtesy light is available to safely light darkened surgical suites
- Single or double yoke available to suit all positioning needs

Perfect for

- General operating rooms
- Hybrid and specialty operating rooms
- Outpatient surgery centers
- Catheterization labs
- C-section suites
- Emergency departments
- Intensive care units
Aurora Astro
Procedure Light

A Versatile Solution for Many Clinical Settings

Utilizing the same superior technology as Skytron’s major surgical lights, the Aurora Astro provides optimal shadow control and depth perception.

Available in single or dual lighthead configurations and fully compatible with Skytron booms, the Aurora Astro is adaptable to many clinical settings.

Perfect for
- Outpatient Surgery Centers
- Emergency Departments
- Trauma Centers
- C-Section Suites
- Labor and Delivery Suites
- Intensive Care Units
- Procedure Rooms

Differentiating Features
- Sterile center handle allows for control of intensity and positioning
- Vertically segmented reflectors create a crisp, homogeneous spot and drastically reduce shadows
- 360° infinite rotation on all axes permits unmatched flexibility and positioning
- Features 4 intensity control settings which can be adjusted from the center sterile handle or the non-sterile yoke control

360° Rotation
17.5” Diameter
126,000 LUX
LED Exam Lighting, Recessed, Strobe-Guided

Lucina 4
Specialty Light

With industry exclusive LED strobe-guided technology, the Lucina 4 positioning wand ensures that the light and caregiver remain focused on the patient. Positioning the light is easy with the convenient wand — point toward the targeted location and the click of a button directs the spot.

**Differentiating Features**
- LED strobe-guided positioning wand directs the spot with a simple point and click
- Light beam can be angled up to 47° for superior illumination
- Wand controls positioning and on/off for up to six lights simultaneously
- Recessed 24” square fixture fits into existing ceiling grid and doesn’t obstruct ceiling mounted equipment
- Non-intrusive design ensures clinical spaces remain comfortable and non-intimidating for patients

**Perfect as an exam light for**
- Labor, delivery, recovery and postpartum suites
- Intensive care units
- Hybrid operating rooms
- Catheterization labs

LED Strobe-Guided
Accuracy

Fully Recessed
Design

28,320 LUX
The Spectra exam light brings the same brilliant illumination and performance expected in the OR to every general examination. Durable construction and a sealed, easy to clean lighthead make the Spectra ready for any healthcare environment.

**Perfect as an exam light for**
- Emergency departments
- Intensive care units
- Labor, delivery, recovery and postpartum suites
- Imaging departments
- General examination rooms

**Differentiating Features**
- Vertically segmented reflectors create a crisp, homogeneous spot and drastically reduce shadows
- 360° infinite rotation on all axes and 355° lighthead pitch for simple and efficient positioning
- Low profile design permits simple transport and storage
- 4,300°K color temperature provides brilliant, white light
- Available as ceiling, wall, mobile stand, or a boom mount

**Exceptional Illumination with Great Contrast, No Glare, and Less Heat**

360° Rotation

12" Diameter

51,000 LUX
Thoughtful lighting designed and engineered to deliver optimum performance so caregivers can focus on patients. We know superior site visualization is paramount but careful attention is also extended to the valued attributes of reliability and flexibility of use. Feature sets and options intentionally developed to meet expectations are interwoven throughout our extensive line of lighting solutions and we have a ready team of experts waiting to listen and learn so we can help identify your unique lighting requirements.

Picking the Right Light for the Job
Disposable Lighting Accessories

**CleanView Disposable Handle Cover**

- The intuitive design of CleanView allows for effortless and non-invasive user experiences for all clinical applications
- The flexible handle cover retains functionality of the intensity control button
- CleanView's retains its sterility with single product packaging

**Skytron Disposable Camera Cover**

- The disposable covers are used over the camera and allow operating staff the ability to adjust the focus of the surgical light from within the sterile field
- Simple installation with snap-button engagement
- Skytron-engineered to fit Lumos, Aurora LED, Aurora AUR, Aurora AUA, and Aurora AUT series light fixtures
