Skytron Integration Quick User Guide

Skytron CAST Support (Image Capture and Record): 1-855-4-677477

Table of Contents

Video Integration Pages 1-6

CAST Pages 7-22

Home Page - Integration

For standard image routing, select any source

Select any monitor and your image will show on the corresponding monitor in the field

To load a preset, select Preset

Press and hold the corresponding preset you would like to load until you see the yellow box*

*Dark gray: Active sources Light gray: Inactive sources

Your preset is now loading and will automatically populate all monitors

Capturing Pictures and Video (CAST)

To capture images or record, select CAST PC

Select capture sources

Select the corresponding active source you would like to capture and press close.*

*Dark gray: Active sources Light gray: Inactive sources

If an active source is selected, you will see a preview of the image

Touch the screen to enter the full screen CAST application

Add a patient by selecting the patient icon and type in information

Once you have successfully opened a case, your source will appear along with all patient information

| 000 | | | | ORPHEUS X |

From here you can take a picture

All pictures taken are shown on the right

Select the center red circle to record a video

You are able to take additional pictures even while recording. Press the pause button to create a video clip. Press play again to resume the recording

When you are certain the case is complete and no additional pictures/video is needed, select the square box to end procedure

Once you end the case, it will take you back to the main CAST screen
