

Lucina 4

Specialty Light

Keep Your Focus on the Patient

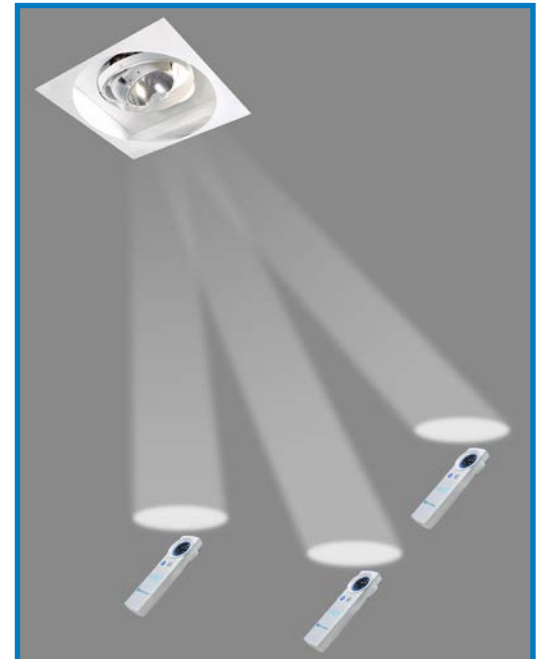

The Lucina 4 is perfect for bringing simple operation and flexible positioning to any clinical environment. This specialty light improves healthcare spaces by keeping them open and free of ceiling mounted equipment conflicts.

Ideal for:

- Diagnostic / Exam Light
- Labor, Delivery, Recovery and Postpartum Suites
- Intensive Care Units
- Hybrid Operating Rooms
- Cath Labs

Simple and Flexible Positioning

- Skytron exclusive strobe-guided technology
- Guide the light beam to the targeted location with a click of a button

Lucina 4 is a diagnostic/examination light and is not intended to be used as a primary surgical luminaire. Skytron recommends a surgical light (fixed or mobile) be included in clinical settings where surgical illumination may be required.

Simple Positioning

Clutter Free Environment

Cost Effective

Lucina 4 Details:

- Unique LED strobe-guided positioning wand
- Angles up to 47° for superior illumination
- Long lasting LEDs
- Fully recessed 24" square fixture
- Wall control with On/Off and intensity touchpad and (back-up) positioning buttons
- Available in one, two, three and four fixture configurations

Tranquil and Accessible Environment

Cost Effective

- Long-lasting life span with energy efficient LEDs
- Flush mounting within the ceiling, an ideal choice for low ceiling heights
- Clears the area and saves space for other equipment

Clean and Clear Environment

- Flush mounting structure to ensure that each clinical space remains comfortable and less intimidating for the patient
- Less invasive than traditional exam lighting arm configurations
