Intensive Care Units

Efficient and Sterile Environments

Skytron's EASE modular system offers a hygienic and healing design for any clinical environment. Our leading solution is great for surgical units, but also suitable to all hospital departments that require easy to clean surfaces with flawless quality. Equipped with a self-supporting substructure and a variety of materials and finishes, the EASE system is certain to set your facility apart from the rest.

Our entire circle of solutions allows you to work with one vendor to equip your hospital with state of the art clinical and infection prevention equipment. We look forward to partnering with you on the design and execution of the next generation hospital environment.

Increase Utilization of People, Facility, and Capital

- Shorter renovation downtime
- Easy repair or replacement of panels (future proofing)
- Clean and quiet work ensure minimum interference with adjacent rooms

Hygienic

- Rounded corners and flush surfaces allow nowhere for bacteria to hide
- Smooth surfaces for efficient cleaning times
- Optional powder coating increases ability to fight off infectious elements

Multiple Material Mix Options Available

- Silver Nitrate powder coating supports lower bacterial growth
- Utility Belt design can house all critical components and promote access
- Deliver a warm feel for staff and patients with aesthetically pleasing graphics and colors

A Design All Your Own

Floral Wall Panel Design

Logo Wall Panel Design

Nature Wall Panel Design

Modular Wall Panels

- Resistant to UV, detergents, bactericidal products, water, steam, and chemicals
- Sanitized powder coating activity fights off bacteria and virus growth
- Remarkable graphic motifs
- Available in galvanized steel, stainless steel, or glass

Modular Ceiling

- Clip-In design for ease of installation
- Compatible entire modular system for ease of installation and serves as a continual access panel for critical ceiling components
- Available in galvanized or stainless steel (brushed or powder coated)

Window and Glass Elements

- Components sit flush within panel system to increase room cleaning efficiencies
- Electronic privacy option
- Variety of sizes and applications

Doors

- Touchless activation option to eliminate bacteria or virus spread
- Ability to hermetically seal to control air movement in the room
- IR sensor assures safety of patient and staff when entering/exiting space
- Available in a variety of sizes in both manual/automatic or sliding/hinged

Circle of Architectural Solutions

Skytron is the Healthcare Efficiency Specialist, providing full-room solutions of capital equipment, architectural and real-time information systems for Medical, Surgical, Sterile Processing, and Infection Prevention. Our solutions enhance the utilization of people, facilities, and capital because they are designed with the user in mind and have a low, long-term cost of ownership.
