

# Sterling P1500

Washer-Disinfector

## Setting the standard for sterile processing

The Sterling P1500 washer-disinfector streamlines and automates the decontamination process – bringing unsurpassed efficiency and flexibility to the Sterile Processing Department.

### Less Water Consumption

- Averages just 23.2 gallons per wash cycle
- Lowers utility and sewage bills
- Uses less chemicals in the cleaning process

### Tailor Cycles to Your Needs

- Allows for 40 fully customizable cycles
- Intuitive touchscreen controls allow for editing parameters for pre-wash, wash, rinse or dry phases and ensure that each water and temperature compatible device is cleaned according to manufacturer specifications

### Process More in a Smaller Footprint

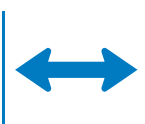

- Offering the deepest depth to allow for a 33% smaller footprint than competitors
- Best throughput per cycle in the least amount of space
- Up to 15 DIN trays per cycle

## Differentiating Features

- **Optional RFID** equipped manifold racks automatically select and start the next cycle when the previous cycle has finished
- **Modular manifold** rack is easily configured to accommodate instrument trays of any size
- **Automatic quality assurance** prompts an on screen checklist for daily maintenance to guarantee consistent performance
- **Automated loading and unloading** carts simplify the transfer process – minimizing the manual handling of heavy equipment
