

# Sterling P1800

Washer-Disinfector

## Process your medical devices the most efficient, and compliant way possible

The Sterling P1800 is designed to set a new standard for Sterile Processing Departments. With a large capacity, small footprint, fast cycles, low water and electrical consumption and most important, disinfected devices on a consistent basis.

### Lower Cost of Ownership

- Less water and chemical use than other washers
- Save 50% in chemical and sewage costs

### Comply With Your Medical Device IFU's

- Edit cycle parameters to meet your needs
- Document the performance of all cycles electronically

### Maximize Your Efficiency

- Best throughput per cycle in the least amount of space
- Up to 18 DIN trays per cycle

Space

## Differentiating Values

- **Automate your SPD**  
with RFID equipped manifold racks that select and start your next cycle
- **Accommodate instrument trays of any size**  
P1800's modular manifold racks are easily configured
- **Maintain consistent performance**  
with a daily on-screen user checklist and remote service connectivity
- **Protects against water quality changes**  
utilizing an optional conductivity sensor
- **Elevate your disinfection process**  
with optional preheat boosters to shorten cycles and recirculation tanks to save critical water

## Configured for Versatility
