

SkyVision SDS

Video Integration System

Simple plug and play technology to manage OR video

The Skytron SkyVision SDS integration system simplifies the management of OR technology, allowing staff to focus on patient outcomes and productivity. Simple touchscreen controls connect clinicians to the images and information they need — freeing them up to focus on the task at hand.

Space Saving and Budget Friendly

- Small footprint addresses the often limited space in most OR's
- Easily installed on an equipment boom or nurse documentation center

Image Management and Patient Focused

- Provides an easy to use interface with two touch routing of any connected video signal
- Allows clinical teams to focus on the patient rather than complicated integration tasks

Media Content Manager

- Vendor Neutral workflow automation with the optional integrated Capture system
- A secure and safe environment to capture still images, record video, collaborate live, connect to Electronic Health Record, Patient Archive Communication Systems, and create structured clinical reports in
- Effectively reduces ink, paper and manual tasks to improve the care continuum for patients
