

ST Mobile Storage Carts

Efficiency, organization, and accessibility are paramount in the fast-paced world of healthcare. Skytron's ST Mobile Storage Carts are designed to elevate your medical facility's storage capabilities, streamline workflows, and enhance patient care. Thoughtfully engineered for medical use, these cabinets provide functionality and practicality to your clinical environment.

Fully Configurable Menu

The Skytron ST Mobile Carts are engineered for a wide range of storage needs, featuring versatile Panelogic™ cell panels that support both flat and angled inventory storage. Storing supplies at an angle enhances visibility and accessibility, while promoting organization and efficiency in clinical settings. With a variety of customizable accessories, and two door styles, ST Mobile Carts provide the flexibility to adapt quickly to diverse clinical tasks.

Flexible Support in the Clinical Space

Mobile for Flexible Usage

ST Mobile Carts provide organized, mobile storage to keep you ready in emergencies. Equipped with 5" polyurethane wheels on swivel casters, they easily navigate over thresholds. Their versatile design allows them to be moved wherever needed, ensuring supplies are always within reach.

In modern healthcare environments, staying organized and working efficiently are critical to delivering quality care. Skytron's ST Mobile Storage Carts help teams manage supplies with ease, improve workflow movement, and support smoother patient interactions. Designed specifically for clinical demands, these carts bring durable, practical storage solutions to any care setting.

Durable Construction

Constructed from powder-coated steel, the carts are durable and easy to maintain. Their smooth, easy-to-clean surfaces help reduce the spread of infection. Heavy-duty casters, combined with a protective bumper around the base, enhance overall durability and longevity.

Vital to Organizing Your Clinical Setting

The ST Mobile Carts are versatile and built to maintain organization and efficiency in the clinical setting, helping teams stay focused and productive throughout the day.

Their mobility provides the flexibility to adapt seamlessly to different clinical tasks, while the enhanced space-saving design maximizes the use of limited areas.

In urgent situations, the organized and mobile storage cart ensures that staff are always prepared and able to respond quickly. The cart can also be customized to meet the unique requirements of each specialty, supporting a wide range of clinical environments.

With smooth, easy-to-clean surfaces, the carts promote infection control and a safer care environment.

Additionally, the innovative angle-oriented Panelogic™ shelving design improves visibility and accessibility, making it easier to locate supplies and enhancing overall workflow efficiency.
