

SkyVision

Seamless Visual Integration

- Push and pull visual information easily to any device, anywhere
- Vendor neutral
- Increased room workflow efficiency and safety
- Simplified procedural set-up process
- Accessible image capture and streaming for TeleHealth and procedural libraries

Collaborative Steps to Efficiency

Learn

Understand the relevant data and applications and its importance to the intended procedures. Map the room and equipment for a logical workflow. Keep the future in mind.

Design

Design details, options and recommendations of room configurations discussed and analyzed.

Create

Implement the solution and go-live.

Monitor & Improve

Evaluate the relevant data and configure to your environment. SkyVision's highly configurable user interface will predictably deliver the right information to the right location at the right time.

SkyVision

Seamless Visual Integration

Improve Work Environments

Efficient management of all visual information within the case.

Faster Access to Patient Images

With simple intuitive touch-screen capabilities to route multiple outlets to multiple displays.

Reduce Procedure Times

Less time under anesthesia because there is less time required for outside clinical consultations.

Media Content Management

Access, share, and archive video and images at the touch of a button.

Increase Procedural Libraries

Capture images and video for training, improvement and education.

Consultative design and planning services for all of your clinical needs

Video Integration

Booms

Lights

Tables

Skytron is the Healthcare Efficiency Specialist, providing full-room solutions of capital equipment, architectural and real-time information systems for Medical, Surgical, Sterile Processing, and Infection Prevention. Our solutions enhance the utilization of people, facilities, and capital because they are designed with the user in mind and have a low, long-term cost of ownership.
