

Skytron & Surgio Health Partnership

Skytron is proud to partner with Surgio Health, whose innovative cloud-based platform helps healthcare organizations improve sterile processing and surgical instrumentation management through enhanced visibility, data-driven insights, vendor collaboration, and educational resources. Together, we are committed to supporting greater efficiency, operational excellence, and improved patient care.

HELPS HEALTHCARE ORGANIZATIONS IMPROVE

- ✓ **Instrument Visibility**
- ✓ **Workflow Efficiency**
- ✓ **Regulatory Compliance**
- ✓ **Data-Driven Decision Making**

Patient Safety
Protect what matters most

Accountability
Know where every instrument is

Cost Control
Reduce loss, rework, and waste

Real-Time Visibility

Know where every instrument is at every step.

Workflow Intelligence

Optimize processes and improve productivity.

Actionable Analytics

Turn data into insights that drive better outcomes.

Surgio Health is a cloud-based platform for sterile processing and surgical instrumentation management, delivering real-time visibility, analytics, vendor collaboration, and educational tools to improve efficiency and instrument utilization.

SurgioSPD

**OR/SPD Surgical Instrumentation
Tracking & Optimization**

Modern cloud-based asset management and instrument tracking for SPD and OR users. Facilitate JCOH/AAMI best practices and support the OR with real-time data.

SurgioScopes

Scope Processing & Management

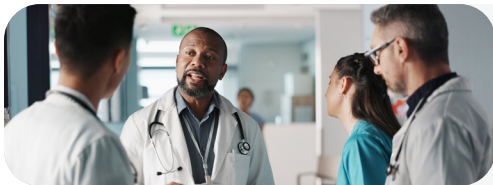

Scope processing and management module that can be used in conjunction with Surgio SPD or as a standalone product. Surgio Scopes covers your bases for documentation and ensures proper processing steps are followed.

SurgioEducate

**Custom Course/Competency
Creation & Management**

Modern e-learning platform that addresses the complexities of competency management for sterile processing and the OR. Make sure your team is up-to-date and keep regulatory reporting simple.

SurgioVendor

Hospital Vendor Rep Management

Vendor-integrated surgical instrument management with hospital oversight. Detailed documentation ensures clear communication and optimal results.

SurgioInsight

Reporting & Analytics

Surgio's solutions feed into a powerful reporting engine. Surgio Insight provides comprehensive analytics that allow you to compare across the enterprise, down to individual facility or a user. This data proactively illustrates risks while driving standardization.

Unlike competing systems, Surgio generates enterprise-level reports without the need for dedicated data analysts or manual data aggregation.

Surgio Differentiator: All analytics and data are accessible and digestible by users without additional upcharge.
